

## Quizzipedia::Client::ControllerClient::CtrlOrganization

**CtrlInstitution**

```
classDiagram
    class CtrlInstitution {
    }
    class CtrlClass {
    }
    CtrlInstitution --> CtrlClass
```

The diagram shows two classes, CtrlInstitution and CtrlClass, each with a header section and a body section. CtrlInstitution is on the left and CtrlClass is on the right. There is a vertical line between them, indicating a relationship.

**CtrlClass**
