

**InstitutionUpdater**

```
graph LR; IU[InstitutionUpdater] --> SC[SessionController];
```

The diagram shows a directed association from the InstitutionUpdater class to the SessionController class. The InstitutionUpdater class is represented by a box with three empty compartments. The SessionController class is represented by a box with three compartments: the top for the class name, the middle for attributes, and the bottom for the method +checkAuthorization(user: String): bool.

**SessionController**

+checkAuthorization(user: String): bool
