

**HomepageStudent**

```
classDiagram
    class HomepageStudent {
    }
    class HeaderLoggedStudent {
    }
    HomepageStudent --> HeaderLoggedStudent
```

The diagram shows two class boxes. The box on the left is labeled 'HomepageStudent' and has two empty rectangular compartments below the name. The box on the right is labeled 'HeaderLoggedStudent' and has two empty rectangular compartments below the name. A horizontal arrow points from the right side of the 'HomepageStudent' box to the left side of the 'HeaderLoggedStudent' box.

**HeaderLoggedStudent**
