

HomepageTeacher

```
classDiagram
    class HomepageTeacher {
    }
    class HeaderLoggedTeacher {
    }
    class Footer {
    }
    HomepageTeacher --> HeaderLoggedTeacher
    HomepageTeacher --> Footer
```

The diagram illustrates a class structure with three classes: **HomepageTeacher**, **HeaderLoggedTeacher**, and **Footer**. Each class is represented by a rectangular box divided into three horizontal compartments. The top compartment contains the class name, while the middle and bottom compartments are currently empty. **HomepageTeacher** is positioned on the left side of the diagram. Two arrows originate from its right side: one points to the top compartment of **HeaderLoggedTeacher**, and the other points to the top compartment of **Footer**. **HeaderLoggedTeacher** is located in the upper right, and **Footer** is in the lower right. All elements are rendered in black with white backgrounds and light gray drop shadows.
