

Quizzipedia::Client::ControllerClient::CtrlUsers

CtrlData

```
classDiagram
    class CtrlData {
    }
    class CtrlUserManager {
    }
    CtrlData --> CtrlUserManager
```

The diagram shows two classes: CtrlData and CtrlUserManager. CtrlData is on the left and CtrlUserManager is on the right. Both classes have a single attribute bar and an empty method bar. A solid line with an open arrow points from CtrlData to CtrlUserManager, indicating a generalization relationship.

CtrlUserManager
