

**ViewTopicsManager**

```
classDiagram
    class ViewTopicsManager {
    }
    class CtrlTopics {
    }
    ViewTopicsManager --> CtrlTopics
```

The diagram illustrates a directed association between two classes. On the left is the **ViewTopicsManager** class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name, while the middle and bottom compartments are empty. On the right is the **CtrlTopics** class, represented by a smaller rectangle with three horizontal compartments. The top compartment contains the class name, and the middle and bottom compartments are empty. A solid horizontal arrow points from the right side of the **ViewTopicsManager** class to the left side of the **CtrlTopics** class, indicating a directed association from **ViewTopicsManager** to **CtrlTopics**.

**CtrlTopics**
